NNEDLearn 2020 DIGITAL STORY

Your NNEDLearn 2020 Digital Story will capture your team's preparation, learning and implementation journey through the Prepare, Learn, and Implement stages of the training. The goals listed below provide a framework for those participating in NNEDLearn 2020 and advance the work to implement your selected intervention by September 2020.

When developing your digital story consider how you would visually capture actions related to these goals:

PREPARE

- Determine who will benefit from the intervention.
- Identify and engage partners to support the sustained implementation of the intervention.
- Establish how you will monitor your implementation progress.

LEARN

- Learn with our trainer and other teams in your training track.
- Discover implementation strategies to use in your community.
- Share "lessons learned" with others members of your organization, your implementation partners, and SAMHSA by September 1st, 2020.

IMPLEMENT

- Initiate the implementation process.
- Monitor your implantation progress.
- Engage community leaders and members to support and grow the intervention.

NNEDLEARN 2020 DIGITAL STORY: PREPARE, LEARN, AND IMPLEMENT

PREPARE

- Identify the audience for your digital story.
- Confirm the focus of the digital story and link the community vision with the NNEDLearn training model.
- Connect with partners and community members who will be involved in or benefit from your NNEDLearn 2020 experience.
- Collaborate with community members to create a storyboard for the digital story.
- Start capturing your digital story.

LEARN

- Expand your organization's service capacity with your NNEDLearn 2020 practice and learned content.
- Consider the population of interest and capture their cultural preferences and needs.
- Help others learn new things about the population of focus through your work.
- Put the digital story script into action. Start putting your digital story together by your script. Considering aesthetics and entertainment level when consolidating ideas.

IMPLEMENT

- Capture the implementation of your NNEDLearn practice.
- Apply what you learned through NNEDLearn 2020 in your organization's practices.
- Check-in with your NNEDLearn 2020 "coach" for assistance and implementation ideas.
- Document your successes and challenges.
- Share implementation highlights on the NNED Discussion Forum.

CREATING NNEDLEARN 2020 DIGITAL STORIES

Think of the work your team is doing in your community to prepare for the digital story

Plan steps to develop content to engage participants within your community

Capture images and videos throughout NNEDLearn experience

Analyze, review and engage your community members through the strategies learned

Conceptualize and put it all together as a team

Share your digital story with other community members and SAMHSA by September 1st, 2020!
